BOARD OF REVENUE, BENGAL.

NOTIFICATION.

No. 16232C.P.—23rd December 1932.—The following draft of a notification, which the Board proposes to issue in exercise of the power conferred by section 39 of the Bengal Public Demands Recovery Act (III of 1913) is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 1st March 1933, and any objection or suggestion with respect thereto, which may be received by the undersigned before that date, will be duly considered:—

Draft notification.

In exercise of the power conferred by section 39 of the Bengal Public Demands Recovery Act (III of 1913), the Board of Revenue, Bengal, with the previous sanction of Government, is pleased to make the following amendments to rules 13, 14, 45, 46 (*1*) and 48 of Schedule II of the Act relating to the attachment and sale of movable property of certificate-debtors.

13. **Application for attachment of movable property in the possession of the certificate-debtor.**—At the time of making an application for the attachment of movable property in the possession of the certificate-debtor, the certificate-holder shall declare whether the property is above or below forty rupees in value. If the property is declared to be above forty rupees in value, the certificate-holder shall pay the costs of issuing the proclamation of sale. If, however, the value of the property, having been declared to be forty rupees or under, should be found, as determined by rule 14, to exceed forty rupees, the certificate-holder shall pay the costs of issuing the proclamation of sale immediately on receipt of notice of attachment.

14. **Procedure for the attachment of movable property when its value is up to Rs. 40 or above.**—When the attaching officer believes that the property attached does not exceed forty rupees in value, he shall inform the debtor or, in his absence, any present adult member of his family, that it will be sold by public auction at once without the issue of any proclamation. In case the certificate-holder or the certificate-debtor, or any person on his behalf, objects to this, the attaching officer shall convoke a panchayat of not less than three respectable adult male inhabitants of the neighbourhood, of whom ordinarily the headman of the village should be one, and shall require them to assess the value of the property. If they determine that it exceeds forty rupees in value, he shall deal with it according to the rules for the sale of movable property exceeding forty rupees in value, otherwise he shall forthwith proceed to sell it by auction, after giving such reasonable notice as the circumstances of the case admit of to intending purchasers.

45. **Sale of movable property falling under rule 15 or of value not exceeding Rs. 40 or of greater value.**—Sales of property under the proviso to rule 15 and of movable property not exceeding forty rupees in value, shall be held on the spot. Such sales will necessarily be conducted by peons when they are the attaching

officers. Sales of movable property of greater value can, under rule 46, take place only after the issue of a proclamation, but they may be held on the spot or at the sadar or subdivisional headquarters, as may seem convenient and conducive to the securing of good prices, provided that the place and time of sale are notified in the proclamation. For such sales officers of higher rank than peons should always be deputed when the value of the property is estimated to exceed fifty rupees and proclamation should be issued. When the value is between forty rupees and fifty rupees, the Collector or Certificate Officer may, by a special order, depute a peon, if he considers it desirable to do so.

46. (1) **Proclamation of sale by public auction.**—Where any immovable property, or any movable property exceeding forty rupees in value, is ordered to be sold by public auction, the Certificate Officer shall cause a proclamation of the intended sale to be made in the language of the Courts of the district.

48. Save in the case of property of the kind described in the proviso to rule 15, no sale hereunder shall, without the consent in writing of the certificate-debtor, take place until after the expiration of at least thirty days in the case of immovable property or of at least fifteen days in the case of movable property exceeding forty rupees in value, calculated from the date on which a copy of a sale proclamation has been affixed in a conspicuous part of the office of the Certificate Officer.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1932-33.

(*Note.*—On an average of the five years ending 1930-31, the area under til in Bengal has represented some 2·5 per cent. of the total area under til in British India.)

Character of the season.—The rainfall in August and September, although generally below the average, was adequate for the preparatory tillage and for the sowing of the crop which commenced this year in the normal time. Excessive rainfall in the latter part of October and in the first part of November caused some damage to the crop and thus reduced the outturn in some important districts. Subsequent dry weather however was beneficial to its growth. On the whole, the season has been fairly favourable for the crop.

Acreage.—The total area sown with the crop this year is estimated at 50,800 acres as against 49,600 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the crop for the province as a whole works out at 83 per cent. of the normal as against 84 per cent. last year. Taking 7 2/5ths maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 11,500 tons this year as against 9,200 tons last year.

G. P. Hector,

Director of Agriculture, Bengal.

King's Police Medal.

NOTIFICATION.

(POLICE.)

New Delhi, the 2nd January 1933.

No. F.-25/V/32-Police.—His Majesty the King, Emperor of India, has been pleased to confer the King's Police Medal, and in two cases a bar to the Medal previously awarded, on the following officers and men of the Indian Police establishments:—

* * * * *

Bengal.

10. Frederick Douglas Bartley, C.B.E., Deputy Commissioner of Police.—In August 1930, on receipt of information that a notoriously dangerous terrorist absconder was hiding in a bungalow near the Ballyganj Railway Station an armed raid was made on the place to arrest the culprit. After the raiding party had taken up their positions, Mr. Bartley with initiative and great courage entered the bungalow, unescorted to face a desperate character who unfortunately had already made his escape.

In the following month, on information that a gang of absconding Chittagong revolutionaries were in hiding at Chandernagore, a party of Calcutta and Bengal police raided a

house there. The raiding party had to deal with armed revolutionaries of a very dangerous type who opened fire on them immediately the house was surrounded. Mr. Bartley with conspicuous gallantry scaled the wall, came into close action with the terrorists, and personally captured and disarmed three of them in different parts of the premises. One of these men was subsequently identified as Loke Nath Bal, a most notorious and dangerous leader of the revolutionaries.

In connection with the Writers' Buildings outrage in December 1930, when the three assassins who had murdered Colonel Simpson, were trying to emerge and were driven back by revolver shots into the room in which they had previously taken shelter, Mr. Bartley, with conspicuous courage and resourcefulness, crawled into the room under cover of the half swing door. The miscreants were found in a disabled condition, having attempted to do away with themselves, one dying on the spot and another afterwards. The third recovered and was convicted and executed. On all three occasions Mr. Bartley displayed qualities of leadership and gallantry. He received the King's Police Medal in 1923 and is now awarded a bar to the Medal.

*11. Jnanendra Nath De, head constable.—Some time in September 1931, head constable Jnanendra Nath De hearing that two armed robbers had abandoned their stolen car on the road at Baidyabati in Hooghly and were proceeding on foot into the rural area with a view to making good their escape, immediately left on a bicycle for the spot after making arrangements for a force to proceed to certain points to block the exit. When he got on their track, knowing them to be armed, with considerable pluck he succeeded in overtaking them unnoticed and awaited their arrival at a cross road. As soon as they turned down one of the roads, he attacked the one who appeared to be the stronger. This man being thrown to the ground, shouted to his companion to shoot his assailant. Realising his danger, the head constable charged the other one while he was about to draw his weapon and grappling with him he succeeded in bringing him to the ground so that they were on top of the revolver. The first man now joined in the affray and assaulted the head constable who was injured during the tussle. In the meantime assistance in the shape of some officers, constables and villagers arrived and secured both the robbers. A long dagger and a six-chambered revolver fully loaded were found on the robbers.

During the investigation two more revolvers and a quantity of ammunition were found, and it was clear that the accused were members of a terrorist organisation.

*12. Lal Muhammad Joarder, officiating Assistant Sub-Inspector.—This officer on hearing that three desperadoes armed with loaded revolvers were escaping on cycles with a large sum of money looted from the Atharabari Postal Mail Runner, police-station Iswarganj, district Mymensingh, alone and unarmed, and at great personal risk, gave chase on a bicycle. Having overtaken them, with the help of some local people, he arrested all three desperadoes recovering from them two loaded revolvers. Though threatened by the culprits, he did not hesitate in performing his duty and but for this prompt act of outstanding bravery on his part the robbers would have escaped with their booty.

*13. Jamadar Singh, constable.—On the 13th October 1931, at 1-30 p.m., while escorting postal money amounting to Rs. 28,000 from the Imperial Bank to the Dacca post office the constable was shot at by revolutionaries with a ·38 bore revolver. The bullet after piercing both the lungs embedded itself in his chest. Despite this, the constable pursued the culprits (who were eventually captured by other pursuers) for a distance of about 150 yards during which he attempted to fire his gun which, however, did not go off, owing to bad ammunition. The courage and devotion to duty shown by him at the risk of his life on this occasion were of a very high order.

*14.—Deoraj Ram, constable.—This constable was one of the escort party of which constable Jamadar Singh was a member, for carrying postal money from the Imperial Bank to the Dacca post office. He too was wounded, in 3 different parts of his body by revolver shots, though not so dangerously as Jamadar Singh. In spite of his wounds he chased two of the culprits until they were captured by the other pursuers. The courage and devotion to duty shown by him at the risk of his life on the occasion were of a very high order.

*15. Berhamdeo Singh, constable.—On the night of the 3rd August 1932, an armed robbery took place in a Gaddi in Bartolla Street, Calcutta. Constable Berhamdeo Singh was on duty nearby and hearing that something was amiss he hurried to the spot and saw four robbers running out of the Gaddi armed with knives and revolvers. As the constable came up one of the robbers threatened him with the revolver and pulled the trigger. It misfired and the robber took to his heels with the constable in close pursuit. As he ran the robber turned and tried to fire no less than four times at his pursuer; the last shot actually fired, but the bullet fortunately jammed in the barrel. The constable caught up his assailant, overpowered him and took him to the Police Station. Constable Berhamdeo Singh acted with great promptitude in coming to the scene of robbery and made a successful capture at great personal risk.

16. Henrick Ericksen Hansen, Deputy Commissioner of Police.—Mr. Hansen joined the Indian Police in 1912 and was promoted to the grade of Superintendent of Police in 1924. After holding charge of several districts he joined the Calcutta Police as Deputy Commissioner, Special Branch, in 1928 which post he now fills. During this period the Special Branch has had to combat a succession of terrorist conspiracies and to deal with a series of terrorist outrages. Mr. Hansen has displayed untiring energy, courage and marked ability in the collection of information and the investigation of terrorist crimes. He has, in addition, both by precept and example

encouraged the officers and men working under him in the Special Branch, whose confidence he has completely won.

Mr. Hansen has supervised the investigation of several important cases which led to the detection of a number of plots and conspiracies of the most dangerous character. One of these cases was brought to a successful termination in Court and earned for Mr. Hansen the appreciation of higher authorities.

17. Bhujendra Nath Sarkar, Inspector of Police.—This Inspector is one of the most successful investigating officers in the Intelligence Branch, in which he has been employed almost continuously since 1916. He has for some time past been employed on work of the utmost secrecy entailing the greatest danger. His courage and devotion to duty have at all times been exemplary and in recent and important political cases the value of his work has been immense.

18. Mafizuddin Ahmed, officiating Inspector of Police.—This officer has rendered conspicuous and meritorious service in the District Intelligence Branch of the Bengal Police, by obtaining valuable information of revolutionary conspiracies which led to the recovery of a large number of unlicensed firearms and other deadly weapons, intended for the assassination of Government officials. His outstanding detective ability led to the arrest and conviction of many desperate political agitators. His distinguished record of bravery and devoted loyalty which has never failed in the face of constant and grave danger merit recognition.

19. Sasadhar Mazumdar, officiating Inspector of Police.—This young officer has had a brilliant career, especially in the Intelligence Branch, where he has earned quick promotion. Coming into prominence during the invetsigation of the Deoghar conspiracy case, he subsequently distinguished himself as an investigating officer in the Mechuabazar conspiracy case and the Puthia mail dacoity case. It was chiefly through his efforts that Government was made aware of the terrorist conspiracy in Barisal prior to the discovery of bombs in Mechuabazar Street, Calcutta, and it was he who collected information which led to the arrest of dangerous terrorist absconders. The whole of his work has been, and is still, carried out at the greatest personal risk. His services in a Special Branch of the Police Department merit special recognition.

N.B.—The awards in the case of officers marked with an asterisk are for conspicuous gallantry falling under Regulation 6 (*a*) of the Regulations governing the grant of the King's Police Medal and will consequently carry the allowances sanctioned in the H. D. letter No. F.-25/IV/28-Police, dated the 7th February 1930.

Indian Police Medal.

NOTIFICATION.

New Delhi, the 2nd January 1933.

No. F.-114/III/32-Police.—His Excellency the Viceroy and Governor-General of India has been pleased to confer the Indian Police Medal on the following officers:—

* * * * *

Bengal.

1. Edmund Bryan Jones, Assistant Inspector-General of Police, Bengal.—The work of Mr. E. B. Jones has been of a high order throughout his service and he has earned commendations for his administration of the heaviest districts in the province. He has been mentioned in the Annual Report on ten occasions. As Assistant to the Inspector-General of Police during the last 5 years his assistance has been invaluable during a very difficult period in working out the many administrative problems that have had to be solved. He also displayed marked courage on the occasion of the Writers' Buildings outrage in December 1930. He was one of the first to chase the culprits, was fired on by them and returned their fire, and, by guarding the door of the room in which they finally took refuge, prevented their escape.

2. Reginald Edwin Anthony Ray, Special Superintendent, Criminal Investigation Department, Bengal.—Mr. R. E. A. Ray has shown great aptitude for intelligence work, in the performance of which both in districts and in the Central Office in Calcutta, he has invariably earned good reports from his superiors.

His exceptional knowledge of the revolutionary movement as a whole and of the several parties that are involved in it has been of particular value in connection with his work in the Central I. B.

3. Abdul Ghafur, Sub-Inspector of Police, Calcutta.—Sub-Inspector Abdul Ghafur on more than 40 occasions has been intimately concerned in working out information leading to the recovery of unlicensed arms and ammunition, and in the investigation and prosecution of the cases arising therefrom. Many of the arrests were made at considerable personal risk and in a number of cases armed terrorists were brought to book. Not a single case investigated and sent up by this officer while in the Special Detective Staff of the Port Police has failed in Court.

This officer has a stainless record and has been specially mentioned in the Annual Administration Report on several occasions.

4. Eric Erle English, Superintendent of Police.—Throughout his service Mr. English has earned good reports on his administrative work. During the two years he was Superintendent of Police of Howrah he showed conspicuous bravery on several occasions in dealing with mobs during the civil disobedience troubles, in the course of which on one

occasion he received several injuries, and his work generally during that period was of a high order. He was successful in dealing with difficult situations which arose out of labour troubles in the Howrah area. He is possessed of coolness and courage and also of an unusual ability to maintain the spirit and confidence of his officers and men.

5. William Stephen Robinson, Sergeant.—On the 1st April 1930, serious rioting took place in the Harrison Road area in Calcutta following on a general strike of the carters. Sergeant Robinson who was attached to Jorasanko police-station went to the assistance of the police on the spot with his posse of 1 head constable and 10 men and after a hand to hand fight dispersed the rioters. He then proceeded to clear the streets of obstructions in the nature of buffalo carts, iron beams and other obstacles placed across the tram track and road, and succeeded in clearing the crossings and enabling traffic to flow again. Sergeant Robinson remained on duty till 12-30 the following morning, and immediately on return to this station proceeded to Sukea Street and assisted in quelling a disturbance at the Vidyasagar Hostel.

On the 3rd of April two days after the carters' strike he assisted in escorting a procession conveying the bodies of rioters killed in the disturbance from the morgue to Nimtolla burning ghat in spite of the threats of a very hostile crowd.

Towards the end of 1930 Sergeant Robinson was on duty daily outside the Presidency College and early in 1931 in the difficult Burrabazar area when he had to deal with picketers and other manifestations of civil disobedience. This work he performed with complete success in spite of its very difficult and trying nature. On one occasion he had to arrest 30 women picketers in the presence of a large and menacing crowd which necessitated a call for reinforcements from headquarters.

6. Rai Sahib Hari Kumar Gupta, Deputy Superintendent of Police.—Rai Sahib Hari Kumar Gupta was appointed direct as an Inspector of Police in 1908 and promoted to the rank of Deputy Superintendent in 1915. In 1925 he was specially selected for transfer to the C. I. D. where he has been employed in the investigation of several important cases. He has shown marked ability and great devotion to duty and has proved himself to be a thoroughly trustworthy officer.

7. Ram Bilas Singh, constable, Calcutta Police.—During his service of three years, constable Ram Bilas Singh has earned no less than 24 rewards all in connection with the arrest of persons possessing and distributing unauthorised and revolutionary leaflets in the town of Calcutta. All this work has been performed during the past 9 months and this constable's initiative and enterprise has been displayed often under the most adverse conditions when the arrests effected by him were made in hostile areas and in the presence of hostile onlookers. The constable has shown great resource and devotion to duty.

8. James Gawler, Station Officer, Calcutta Fire Brigade.—Station Officer Gawler has been for many years in charge of the Cossipore District Fire Station, situated in the centre of the jute press area, where the risk of fire is very great. Such fires are difficult to deal with and entail considerable danger in getting fire appliances to work owing to collapsing walls, and this officer has had many narrow escapes. Station Officer Gawler is always the first officer to arrive at jute fires and there is not a single case on record where a fire has not been properly and promptly dealt with. As officer in charge of the Fire Station he has displayed fine qualities of discipline and efficiency and his work is of the highest standard.

N.B.—The awards in the case of officers marked with an asterisk are for conspicuous gallantry falling under Regulation *d* (*i*) of the Regulations governing the grant of the Indian Police Medal and will consequently carry with them the special allowances admissible to officers of and below the rank of Inspector of Police or corresponding rank.

(*2*) If any such ship is loaded in contravention of this section, the owner or master of the ship shall for each offence be liable to a fine which may extend to

one thousand rupees and to such additional fine, not exceeding the amount hereinafter specified, as the Court thinks fit to impose having regard to the extent to which the earning capacity of the ship was, or would have been, increased by reason of the submersion.

(*3*) The said additional fine shall not exceed one thousand rupees for every inch or fraction of an inch by which the appropriate load line on each side of the ship was submerged, or would have been submerged if the ship had been in salt water and had had no list.

(*4*) In any proceedings against an owner or master for a contravention of this section, it shall be a good defence to prove that the contravention was due solely to deviation or delay, being deviation or delay caused solely by stress of weather or other circumstances which neither the master nor the owner nor the charterer (if any) could have prevented or forestalled.

(*2*) With a view to determining the validity in British India of certificates purporting to have been issued in accordance with the International Convention respecting Load Lines, 1930, in respect of ships not registered in British India, the Governor General in Council shall make such rules as appear to him to be necessary, and for the purpose of the provisions hereafter contained in this Part relating to ships not registered in British India, the expression 'a valid international load-line certificate' means a certificate complying with such of those rules as are applicable in the circumstances.

(4) If it is found on any such inspection that the load lines on the ship are not in the position specified in the certificate, the ship may be detained until the matter has been rectified to the satisfaction of the surveyor.

Provided that where the ship has been detained under either of the last-mentioned sections, the Governor General in Council shall order the ship to be released as soon as he is satisfied that the ship is fit to proceed to sea without danger to human life.

The International Conference for the Safety of Life at Sea held in London in 1929, and the International Load Line Conference held in London in 1930, adopted, respectively, the International Convention for the Safety of Life at Sea, 1929, and the International Convention respecting Load Lines, 1930. India was represented at both Conferences.

2. The Government of India, after consultation with the interests concerned, have come to the conclusion that the two Conventions should be ratified by India. In order to give effect to the Conventions it is necessary to amend the Indian Merchant Shipping Act, 1923, in several respects, and the present Bill is designed to provide for the carrying out of the requisite amendments. The Conventions have already been ratified by several countries, including the United Kingdom, and will come into force for ships registered in those countries on the 1st January, 1933. In the United Kingdom effect has been given to the Conventions by the passing of the Merchant Shipping (Safety and Load Line Conventions) Act, 1932. The present Bill is generally based on that Act.

3. Opportunity has also been taken to carry out certain other amendments in the Indian Merchant Shipping Act which have in the past been noted down for legislation.

4. The reasons for the several amendments included in the Bill are explained in the Notes on Clauses.

J. W. BHORE.

NEW DELHI;

The 26th November, 1932.

NOTES ON CLAUSES.

Clauses 2, 4 to 8, 10, 11 and 23 to 34.—The object of these clauses is to give effect to the International Convention for the Safety of Life at Sea, 1929, and the International Convention respecting Load Lines, 1930.

Clause 3.—This clause is designed to bring the Indian law into line with the requirements of the Merchant Shipping Acts and with the existing practice based on those Acts.

Clause 9.—The purpose of this clause is to eliminate the provision in section 144 of the Indian Merchant Shipping Act, 1923, regarding attestation of foreign certificates of survey by British Consular Officer. This provision has, in actual practice, been a dead letter for a considerable time, and will lose its practical importance when certificates having international validity are issued by countries which have ratified the International Convention for the Safety of Life at Sea.

Clauses 12, 13 and 14.—The object of these amendments is (1) to eliminate from the Act the phrase "native passenger" and "native passenger ship," and (2) to eliminate racial considerations from the provisions relating to unberthed passengers.

Clauses 15, 18, 19, 21 and 22.—The provisions of Part IV of the Indian Merchant Shipping Act, 1923, relating to native passenger ships and pilgrim ships, at present contain references to steamships only. With a view to extend the scope of these provisions to cover the case of motor ships, where section 3 does not already achieve this effect, it is proposed to make these amendments.

Clause 16.—The responsibility not to load dangerous cargo has, by the proposed new section 143A, been placed on the ship master, and as the existing wording of section 160 (*1*) of the Indian Merchant Shipping Act, 1923, places on the certifying officer a responsibility which he is in practice unable to discharge, it is considered necessary that this section should be modified and brought into accord with the actual situation.

Clause 17.—The object of this amendment is to give statutory authority for the existing executive practice, which was introduced to provide a check on overcrowding on voyages between intermediate ports.

Clause 20.—Under the existing law the obligation to carry Medical Officers is laid upon one class of "native passenger ships" only, namely, "native passenger ships" carrying more than one hundred passengers between ports in British India and the Red Sea. In view, however, of the importance of unberthed passenger traffic in India and the large number of women and children carried on board "native passenger ships" and the fact that in actual practice Medical Officers are ordinarily carried on all such ships, it is proposed to make the provision more general. The Government, however, propose to use their powers under section 148 of the Indian Merchant Shipping Act to exempt ships on short voyages of less than 72 hours' duration from the obligation to carry a medical officer.

Reforms.

CALCUTTA, THE 16TH JANUARY 1933.

RESOLUTION—No. 122A.R.

1. The Government of Bengal for some time have had under consideration the list of castes to be included in the depressed classes in Bengal. In March 1932, in evidence given to the Indian Franchise Committee, it was stated that the list of castes regarded as depressed was under revision, but the Committee were given the list adopted in the 1921 census with additions and omissions which had been proposed in the intervening period. The Indian Franchise Committee were also informed that a final decision could not be given till the views of the castes concerned were ascertained.

2. The views of the Indian Franchise Committee are given in Chapter X of Volume I of their Report, more especially in paragraphs 282 to 286, and in paragraph 297 the local Government were called on to prepare a complete classification of the depressed classes on the lines indicated by the Committee, *i.e.*, on the basis of the criterion of untouchability which had been adopted by the Committee.

3. Subsequently, when the Communal Decision was announced it was found that in the section dealing with the representation of the depressed classes provision had been made for a modification where necessary of the definition of the "depressed classes." "The precise definition in each province of those who (if electorally qualified) will be entitled to vote in the special Depressed Class constituencies has not yet been finally determined. It will be based as a rule on the general principles advocated in the Franchise Committee's Report. Modification may, however, be found necessary in some provinces in Northern India where the application of the general criteria of untouchability might result in a definition unsuitable in some respects to the special conditions of the province." (Paragraph 9 of the Communal Decision.)

4. The Government of Bengal are satisfied that Bengal is one of the provinces in which the application of the general criteria of untouchability would result in a definition unsuitable to the special conditions of the province. They propose therefore in accordance with the discretion given them by the Communal Decision to adopt the attached list of castes to be designated "Scheduled Castes" as the basis of their scheme for carrying out the proposals as first embodied in that Decision for the representation of the "depressed classes" and as subsequently modified in accordance with the Poona Agreement. The list has been prepared on the basis of the social and political backwardness of these castes and the necessity of securing for them special representation in order to protect their interests.

5. Before making the list final, however, the local Government have decided to publish it for criticism. It is to be noted that the list includes not only Hindu castes but also some groups of aboriginal derivation now resident in Bengal which profess tribal or mixed religions.

It excludes some castes like the Telis and Kalus, from which definite objections have been received against inclusion in any list of "depressed classes."

6. Any public body, caste association, or individual desiring to submit any representation regarding the inclusion or non-inclusion of any caste or castes in this list of "Scheduled Castes" should submit it to the Reforms Officer to the Government of Bengal, in the Appointment Department, within one month from the date of publication of this Resolution in the *Calcutta Gazette*. No representation received after that date will be considered.

Order.—Ordered that the Resolution be published in the *Calcutta Gazette* and forwarded to newspapers in Calcutta and mufassal for publication.

By order of the Governor in Council,

R. N. REID,
Chief Secy. to the Govt. of Bengal.

(*b*) "Temporary transfer" means a transfer to duty in another station which is expressed to be for a period not exceeding four months. For the purpose of this division it includes deputation. Subject to the limit of four months, the title to compensatory allowance, if the temporary duty is subsequently extended beyond four months in all, will remain intact up to the date of the orders of the extension.

No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part I of the *Calcutta Gazette* of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor in Council intends to make, for the supply of water from the combined Damodar and Eden Canal (to be called the Damodar Canal), is hereby published for the information of the persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the undersigned before that date will be duly considered:—

Draft rules and schedule of rates.

1. **Lease for a term of years.**—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the guidance and control of the Divisional Canal Officer.

2. Each block formed under rule 1 shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps to be maintained by such officers.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they shall expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Chief Engineer shall fix from time to time the gross area for which, and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such leases being taken, shall be kept in the Subdivisional Canal offices. These maps shall be drawn to a scale $32'' = 1$ mile when such are available, and elsewhere to a scale $16'' = 1$ mile.

6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional or Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Zilladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.

7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch map and a *khasra* and shall measure the areas of the plots with a chain or measuring rod.

8. When the *khasra* is prepared the Zilladar shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Subdivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

The Zilladar shall then prepare a khatian or abstract of the *khasra*, and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. **Covering leases.**—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. **Kharif season leases.**—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in accordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but holders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. **Single watering leases.**—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of years. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

If the Subdivisional Officer is able to supply water and accepts the application he will require the applicants to pay in advance one-half of the amount due on the areas entered in the application at the rate specified in the schedule of rates, and on this sum being paid he will at once issue a permit in the form given in Appendix No. VIII to these rules and will supply water. When the watering has been concluded the area actually irrigated shall be determined and the assessment shall be made on the areas actually watered within the limits of the block specified in the application and permit.

14. **Rabi season leases.**—Applications for water to irrigate spring rice or other crops excluding sugarcane between November and March inclusive, may be presented at the Subdivisional Canal office or to the

Sectional Officer. They must be in the form given in Appendix No. IX to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix X to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

15. **Sugarcane season leases.**—Applications for water to irrigate sugarcane between the 1st November and the 31st March inclusive may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix XI to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on these areas for which water is actually used as determined by measurement. The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

16. **Single waterings in the hot weather.**—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.

17. **Supply of water.**—The Divisional Canal Officer shall control the supply of water throughout the division in his charge.

No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.

18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.

20. **Collection of water-rates.**—The rates due for water supplied shall be collected by the Revenue Officer through his staff of Zilladars, Tahsildars and peons. All khatians or demand statements shall be signed by the Revenue Officer after scrutiny in his office.

21. At the time of preparation of the khatian in the Zilladar's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.

24. **Unauthorised use of water and waste of water.**—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged in accordance with the provision in the schedule of rates attached to these rules.

25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.

26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.

27. **Complaints and applications.**—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zilladars' offices.

29. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

31. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, he may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is disposed of.

33. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

34. **Remissions and alterations of demands.**—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop.

35. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season derived any benefit from the supply of canal water.

36. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39. Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the Local Government.

40. **Irrecoverable demands.**—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.

41. **Cultivators' representatives.**—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of the applications for leases.

(*ii*) In the measurement of the irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivators the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Zilladars any changes in the occupancy of lands under lease.

(*vii*) In assisting the Tahsildar in collecting rates.

43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

45. Applicants for single waterings for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42 and shall receive remuneration on the same scale as in rule 43.

46. **Power to decline or cancel leases.**—Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—

I. No tank shall be filled unless the water is to be used exclusively for domestic purposes or for watering cattle.

II. No tank shall be filled from which irrigation is practised.

III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.

49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupee one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

Insert the following as Rule 30A, in Chapter V, Part II, at page 27:—

"The notice to a minor, of the proceedings in this Court, whether such minor was a party in the courts below or is substituted in this Court, shall, in the first instance, be served on a guardian to be proposed who must either be the certificated guardian or in his absence the natural guardian. When the notice is served on the certificated guardian, no further action will ordinarily be taken. But if the notice is served on the natural guardian and he does not appear in the case within twenty-one days after the date of service of the notice, the matter shall be brought to the notice of the Registrar with a view to the appointment of the Deputy Registrar as guardian *ad litem* of the minor in question. If, however, in

This Rule shall apply to all appeals and revision cases which may have been pending in the High Court on the 14th November 1932; provided that as regards all such cases as may have been pending before that date such representation of minors concerned therein as was or could be considered valid on that date but for this Rule will not be, merely by reason of it, invalidated."

Rules of business under section 32 of the Local Self-Government Act.

Clause (a).

Meetings.—Rule 1. If the Chairman is temporarily absent from his duties, or if the office of Chairman is temporarily vacant, the duties of the Chairman under these rules shall be performed by the Vice-Chairman.

Rule 2. Meetings shall be either ordinary or special.

Rule 3. An ordinary meeting of the Alipur Duar local board shall be held on the first Wednesday of every month: Provided that if the first Wednesday of any month falls on a gazetted holiday, or on the first day of the month, then on the second Wednesday or if for any other reason it is deemed inconvenient, the Chairman may fix another day for the ordinary meeting of the Board. If there is not enough business the Board may hold meetings at greater intervals than a month.

Rule 4. A special meeting of the Alipur Duar local board may be called at any time by the Chairman. The Chairman shall be bound to call a special meeting on a requisition signed by one-fourth of the total number of members.

Rule 5. The subjects referred to in rule 65 of Part IV of the General Rules, and in section 29 of the Act shall be dealt with at special meetings only.

Rule 6. All other subjects which come within the province of the Alipur Duar local board, may be dealt with at either ordinary or special meetings.

Rule 7. Meetings shall be held at the office of the Alipur Duar local board or at such place as the Chairman may from time to time determine.

Rule 10. A notice book shall be kept by the Chairman of the Alipur Duar local board, in which all notices of motions shall be entered. All such notices shall be dated and numbered as received.

Adjourned meetings.—Rule 11. An adjourned meeting is not competent to transact any business save that which the original meeting left unfinished.

Rule 12. An adjourned meeting being merely a continuation of the original meeting, does not require any fresh notice.

Clause (b).

Conduct of proceedings at meetings, etc.—Order of business.—Rule 13. At ordinary meetings, the business shall be conducted in the following order:—

(*a*) The minutes of the last ordinary meeting, and of any special meeting held since, shall be read and, if approved as correctly entered, shall be signed by the Chairman of such meeting.

(*b*) Business postponed from the last ordinary meeting shall be considered.

Rule 15. In the event of any objection being raised to the manner in which any resolution has been recorded, the Chairman shall decide the question after reference to the original drafts of the resolution; and if he finds the minutes to be inaccurate, shall make the necessary correction in the minute book.

Rule 16. Unless by permission of the majority of the meeting, all subjects shall be discussed in the order in which they appear in the notice paper.

Rule 17. Any member may ask a question or questions to the Chairman relating to the affairs of the Alipur Duar local board. A written notice of such questions together with a copy thereof, shall be sent to the Chairman at least seven days before the day of the meeting. On the day of meeting and before other business commences, the Chairman may at his discretion read out his answer, if any, or lay a written copy of his answer on the table. No debate shall be allowed on any question.

Motions and amendments.—Rule 18. Every motion and amendment duly moved must be seconded and until seconded no debate thereon can take place.

Rule 19. Every motion and amendment, after being reduced to writing, under rule 74 of the General Rules, shall be signed by the proposer and seconder before being put to the vote.

Rule 20. Every amendment shall be so worded as to be capable of making an intelligible sentence either alone or in its proper place in an original motion, as the case may be: Provided that no amendment can merely negative the original motion.

Rule 21. The President of the meeting may, for reason or reasons to be recorded in writing and entered in the minutes of the proceedings—

(*a*) rule that a motion or amendment is illegal or out of order, and

(*b*) make such alterations in a motion or amendment as shall, in his opinion, render it legal, and in order,

and may in case (*a*) refuse to put the motion or amendment to the meeting, and in case (*b*) refuse to put the motion or amendment to the meeting unless and until the proposer and seconder accept and sign the alteration so made. And the decision of the President shall be final.

Rule 22. After a motion has been moved and seconded an amendment may be moved at any stage of the debate thereon.

Rule 23. On the discussion being concluded in the event of several amendments having been proposed, the President shall put the last amendment to the vote first: if it is negatived, he shall put the last preceding amendment; and lastly, the first amendment: and if all the amendments are lost, the original proposition shall be put to the vote.

Rule 24. When a motion or an amendment has been put from the Chair and been declared by the President to be duly carried, no further proposals for amending the motion or amendment can be entertained.

Right to speak.—Rule 25. The President may require members to stand when they address the meeting.

Rule 26. The member who first addresses the meeting shall be entitled to be heard first; and should more than one member rise to address the meeting at the same time, the order of precedence shall be determined by the President.

Rule 27. Any member shall be at liberty to call the attention of the President to a point of order, even when a member is speaking. On a point of order being raised, the member addressing the meeting shall resume his seat until the question has been decided by the President. After the decision of the President the same point of order cannot be raised again. Except as provided by this rule, no member shall interrupt a speaker in possession of the meeting.

Rule 28. Except as provided in the last preceding rule, no member shall speak except to move or second a motion or amendment, or to support or oppose a motion or amendment which has been duly moved and seconded.

Rule 29. A speaker who has exhausted his right to speak on an original motion, may speak on any amendment being moved, as that raises a new question.

Rule 30. The mover of a motion or amendment shall in all cases have a right of reply, but otherwise no member shall speak more than once on the same motion or amendment, unless in explanation of some part of his original speech.

Rule 31. Unless not less than two-thirds of the members of the board consent by signing a requisition, no subject once finally disposed of can be reconsidered within six months.

Note.—Such requisition must be signed by at least two-thirds of the total number of members constituting the board when complete.

Rule 32. When any business, of which notice has not been given, is considered at a meeting the decision recorded or resolution adopted at such meeting shall be of no effect unless and until it is confirmed at the next succeeding ordinary meeting, or at a special meeting called expressly for the purpose.

Rule 33. For the purpose of taking into consideration business involving many details, the meeting may resolve itself into a committee of the whole body. When this has been determined on, the rule prohibiting any person from speaking more than once on the same question shall be deemed suspended until the meeting resumes.

Rule 34. When a motion or amendment is put to the vote, the President shall record against it first the names of members voting for it and then the names of those voting against it.

Rule 35. Voting by proxy is prohibited: and no member may vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

Protests or dissent.—Rule 36. Protests must be limited to a concise and definite statement of the motive which prompted the votes of members who voted in the minority on a given question.

Rule 37. Protests must be handed to the Chairman before the conclusion of the meeting at which a resolution protested against was passed.

Rule 38. Protests duly made shall be appended to and published with the minutes.

Adjournments.—Rule 39. It shall be competent to any member to move the adjournment of the debate or of the meeting in a speech not exceeding five minutes in duration.

Rule 40. When a motion for the adjournment of the meeting or of a debate is made, it shall be seconded without a speech and put by the Chairman to the vote without debate or amendment.

Rule 41. No motion for the adjournment of the meeting or of a debate shall be admissible which proposes an adjournment beyond the next ordinary meeting.

Clause (c).

Rule 42. The local board, Alipur Duar, from time to time may appoint out of its members, such and so many committees, either of a general or special nature and consisting of such number of persons as they think fit, for any purposes which in the opinion of the board, can be conveniently regulated and managed by means of such committees; but the acts of every such committee shall be submitted to the Board for their approval.

Rules.

1. **Short title.**—These Rules may be called the Ottawa Trade Agreement Rules, 1932.

2. **Application.**—These Rules apply to goods consigned from the following countries, namely:—

(*a*) The United Kingdom of Great Britain and Northern Ireland, and

(*b*) The Colonies, British Protectorates, and territories under the British Mandate specified in the First Schedule.

3. **Definitions.**—In these Rules—

(*b*) "United Kingdom" means the United Kingdom of Great Britain and Northern Ireland;

(*c*) "British Colony" means any country specified in the First Schedule;

4. **Conditions for admission at preferential rates.**—No article shall be deemed to be the produce or manufacture of any country to which these Rules apply unless the Customs Collector is satisfied that it has been consigned from such country, and—

(*a*) where the article is unmanufactured, that it has been grown or produced in such country, and

(*b*) where the article is manufactured,—

(*i*) that it has been wholly manufactured in such country from material produced in such country, or

(*ii*) that it has been wholly manufactured in such country from unmanufactured materials, or

(*iii*) that it has been partially manufactured in such country and the final process of manufacture has been performed in such country and that the expenditure on material produced and labour performed in such country in the manufacture of the article is not less than one quarter of the factory or works cost of the article in its finished state:

Provided that where the goods were consigned from a British Colony the material produced and labour performed in any other British Colony may be reckoned as though it were material produced or labour performed in the Colony from which the goods are consigned.

5. **Customs House procedure for goods entered for home consumption.**—If the owner of any goods entered for home consumption claims that they are chargeable with a preferential rate of duty, but is unable at the time of entry to satisfy the Customs Collector that the goods fulfil the conditions laid down in Rule 4, the Customs Collector—

STATEMENT OF OBJECTS AND REASONS.

The Auxiliary Force Act, 1920, provides—

(A) that persons subject to the Act shall be divided, according to their age, into three Classes—the Active Class, the 'A' Reserve and the 'B' Reserve, and

(B) that specified periods of training shall be undergone by the members of each Class.

Experience has shown that these provisions, besides being somewhat complicated, are not conducive either to efficiency or economy. An individual's suitability for active or reserve duties need not necessarily depend solely on his age; and seeing that most of the funds devoted to the Auxiliary Force are spent on training, it is unreasonable that Government should not possess, especially in a period of financial stringency, the power to vary the amount of training to be done in order to meet the necessities of the case.

The Bill accordingly provides that persons subject to the Act shall be divided into only two Classes—the Active Class and the Reserve—and empowers the competent military authority to determine the periods of training to be undergone by persons subject to the Act, with the reservation that no such person shall be required to undergo more training than that to which he is liable under the existing law.

At the same time the opportunity has been taken to amend the Act in two other respects which experience has shown to be desirable. In the first place, greater latitude is provided in the interpretation of the term 'competent military authority', so as to enable the administrative procedure and chain of responsibility to conform as nearly as possible to that of the regular army.

In the second place, the statutory restriction is removed under which, at present, only persons residing in the prescribed military area in which the headquarters of a corps or unit are located are eligible for enrolment in that corps or unit.

NEW DELHI; G. R. F. TOTTENHAM.

The 8th November, 1932.

NOTES ON CLAUSES.

Clause 2.—The definition of "competent military authority" contained in the Act has been found too rigid, and gives rise to administrative difficulties. The amendment will enable the administrative procedure and chain of responsibility in the Auxiliary Force to conform as nearly as practicable to those in the regular army.

Clause 3.—The existing restriction limiting enrolment to corps or units located in the military area where the recruit resides has been found inconvenient in practice. The amendment will provide greater elasticity in enrolment, while retaining power to regulate the conditions of enrolment by the rule-making power given by section 30 of the Act.

Clause 4 (a).—The reorganization of Classes in the Force by the amendment of sections 11 and 12 of the Act, with the abolition of the age standards makes this amendment necessary.

Clause 4 (b).—In the Act as it stands the training both preliminary and periodical is fixed. It is desired to have power to reduce when expedient the training that must be undergone. This amendment, together with the power of exemption provided by sub-clause (*c*), aims at providing this power.

Clause 5.—The class referred to in section 10 of the Act no longer exists.

Clause 6.—The amendments here made are consequential upon clause 5 and upon the amendments referred to in the note on clause 4.

Clause 7 (a) (i) and (*b*).—These amendments are consequential upon clause 5.

Clause 7 (a) (ii), (iii) and (*c*).—These amendments give effect to the reorganization of the Force in two Classes instead of three. See also note on clause 4.

Clause 7 (d).—Sub-section (*5*) of section 12 becomes unnecessary in consequence of the power of exemption given in section 13 (*1*) (*b*) of the Act.

Clause 8 (a).—This amendment is consequential on the reorganization of the existing three Classes in the Force into two Classes.

Clause 8 (b).—This amendment aims at simplifying the procedure of granting certificates, by abolishing the necessity of granting a certificate to each person, and permitting the adoption of some such procedure as an entry in the corps orders.

Clauses 9 and *11.*— Consequential on the alteration in the definition of "competent military authority ".

Clause 10.—Consequential on the changes made by clauses 4 (*b*) and 6 (*c*).

Clause 12 (a).—Consequential on clause 2.

Clause 12 (b).—Consequential on clause 3.

Clause 12 (c).—The existing clause is not wide enough to enable rules to be made governing the conditions under which pay may be drawn, *e.g.*, whether pay may be drawn by an enrolled person for both periodical and preliminary training undergone in the same year.

Clause 13.—The alterations in the Schedule are necessitated by the reorganization of the Force into two Classes instead of three.

In addition to the details required on the previous page, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken or has agreed to take in order to make good the deficiency.

(*a*) A water-rate has been levied at 6 per cent. on the annual value of holdings without water connections and at 7½ per cent. on holdings having water connection. This, together with the surplus of the rate realised from water-works on the west of the river Lakshya, will go to meet the charges of the proposed loan for the east side waterworks.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the previous page are levied, other than tax on persons, should be stated here.

(*b*) The increase in the revenue by the imposition of water-rate as above in the usual way. The house tax is levied at 6¾ per cent. on the annual value of holdings. The latrine tax on a scale sanctioned by Government (*vide* page 80 of Government of Bengal, Local Self-Government Department resolution reviewing the reports on the working of Municipalities in Bengal, during the year 1929-30).

(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(*c*) A loan of Rs. 75,000, being the First instalment of the estimated cost of Rs. 2,07,500, was received from the Government on the 20th February 1930 and the second instalment of Rs. 28,000 on 4th December 1931 for the water-works extension scheme for the east side of the river Lakshya; the annual charges involved on the loan is Rs. 8,880-8 and the amount still payable is Rs. 96,860-9.

(*d*) Any explanation in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

(*d*) The municipality has Rs. 32,049 in sinking and waterworks improvement fund kept apart from the ordinary fund. There was a non-recurring special expenditure during the year 1930-31 amounting to Rs. 8,025 for purchase of motor lorries for conservancy works. Hence there is no surplus in receipt as noted in column 20. Such expenditure is not expected during the next three years.

Burdwan.—No. 115P.H. — 23rd January 1933.—Whereas the Government of Bengal (Ministry of Local Self-Government) are satisfied that the area known as the Asansol Mining Settlement, in the Asansol subdivision of the district of Burdwan, is threatened with an outbreak of small-pox.

Now, therefore, in exercise of the power conferred by section 2A, read with sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Government of Bengal (Ministry of Local-Self Government) are pleased to prescribe the following temporary regulations for the prevention and control of small-pox, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, small-pox in the said area until the 31st December 1933:—

Temporary Regulations for the Prevention and Control of Small-pox in the Asansol Mining Settlement.

1. In these regulations, unless, there is anything repugnant in the subject or context,—

(*a*) the expression "Chief Sanitary Officer" shall mean the Chief Sanitary Officer appointed by the Local Government for mining settlements under section 5 of the Bengal Mining Settlements Act, 1912 (Bengal Act II of 1912);

(*b*) the expressions "Agent," "employed," "mine" and "owner" shall have the same meaning as in section 3 of the Indian Mines Act, 1901 (Act VIII of 1901);

(*c*) the expression "Board" shall mean the Mines Board of Health of Asansol;

(*d*) the expression "District Magistrate" shall have the same meaning as in section 101 of the Code of Criminal Procedure (Act V of 1898);

(*e*) the expression "small-pox" shall mean any disease accompanied by an eruption of vesicles or pustules.

Notices.

2. Whenever any land is held jointly by two or more persons, whether as owners or occupiers of that land, such persons shall be held jointly and severally liable for carrying out any measure ordered in a notice under these regulations, and the names of any one or more of such joint-holders may be entered upon such notice at the discretion of the Chief Sanitary Officer, and the Chief Sanitary Officer shall not be bound to enter the names of all the joint-holders in the notice.

3. If in any case the Chief Sanitary Officer considers that the issue of a notice is likely to lead to such an amount of delay as might facilitate the spread of small-pox, he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter as soon as possible issue a notice on the person concerned stating the reason why such work has been carried out.

CALCUTTA, THE 20TH JANUARY 1933.

RESOLUTION—No. 326Com.

The supply of articles required for the public service in Bengal is regulated by the rules issued with this department resolution No. 5606-Com., dated the 20th August 1926, which were framed on the lines of the Stores Purchase Rules for the Central Government and Provinces other than Governors' Provinces, promulgated with the resolution of the Government of India, Department of Industries and Labour, No. S-217, dated the 6th May 1924, with certain modifications which were considered necessary to meet the requirements of this province. The policy underlying the rules was the encouragement of the industries of the country without sacrificing economy. With a view to encouraging the development of the industries of the country to the utmost extent consistent with economy and efficiency, the Government of India decided to replace the arrangements existing under the Department of Industries and Labour resolution No. S-217, dated the 6th May 1924, for the supply of articles for the public service by a system of rupee tenders for delivery in India. To give effect to that policy the Government of India, with the Department of Industries and Labour, resolution No. S-217, dated the 12th December 1929, promulgated revised rules to regulate the purchase of stores by all departments and officers of the Central Government and of the Provinces other than Governors' Provinces, and in forwarding a copy of the revised rules asked the local Government to consider the desirability of revising the rules regulating the purchase of stores in Bengal on the same lines.

2. In the revised rules framed by the Government of India, no financial restrictions have been placed on local purchase by the officers under the Government of India, and Provinces other than Governors' Provinces, and a limited preference is allowed in respect of price to articles produced in India. The Government of Bengal, in accepting the suggestion of the Government of India, decided similarly to liberalise the existing rules as regards the powers of purchase by local officers, and to allow a limited degree of preference in respect of price to articles produced or manufactured in Bengal. After considering the replies from the various commercial bodies in this Presidency and the several departments of Government which were consulted on the draft rules, the Governor in Council, acting with his Ministers, is pleased to direct that the rules appended to this resolution shall regulate the purchase of stores (other than printing and stationery stores) by all departments and officers under the Government of Bengal, with effect from the 1st March 1933. These rules supersede those promulgated with this Government resolution No. 5606Com., dated the 20th August 1926. In the interval stores may be purchased in accordance with these rules whenever it is found convenient to do so.

Local officers are empowered under these rules to make purchases subject only to budget provision and to the general restrictions on the purchasing powers of officers imposed by paragraphs 116 and 116A of the Bengal Audit Manual. Any items exceeding the financial limits of purchasing officers will require the sanction of Government, but in according such sanction no consideration will arise as to the origin of the stores.

Order.—Ordered that this resolution be forwarded to the several departments of this Government, all heads of departments and officers and the Accountant-General, Bengal, for information.

Ordered also that this resolution be forwarded to the Chambers of Commerce and Associations, and that it be published in the *Calcutta Gazette*.

By order of the Governor in Council,

R. N. GILCHRIST,
Joint Secy. to the Govt. of Bengal.

Rules for the supply of articles required to be purchased for the public service.

Preamble.—The policy of the Government of Bengal is to make their purchases of stores for the public service in such a way as to encourage the development of the industries of the country to the utmost possible extent consistent with economy and efficiency, and the following rules, which are applicable to the purchase of stores (other than printing and stationery stores) for the departments under the Government of Bengal are prescribed in accordance with this policy. These rules supersede all previous orders on the subject.

In order to give effect to the above policy preference in making purchases will be given in the following order:—

First, to articles which are produced in India in the form of raw materials, or are manufactured in India from raw materials produced in India, provided that the quality is sufficiently good for the purpose;

Secondly, to article wholly or partially manufactured in India from imported materials provided that the quality is sufficiently good for the purpose ;

Thirdly, to articles of foreign manufacture held in stock in India, provided that they are of suitable type and requisite quality ;

Fourthly, to articles manufactured abroad which need to be specially imported.

Departments of the Government of Bengal, or officers specially authorised in this behalf, may, when they are satisfied that such a measure is justified, allow a limited degree of preference in respect of price to articles produced or manufactured in Bengal or alternatively elsewhere in India either wholly or in part.

Rule 1.—Save as provided in rule 7, all articles required to be purchased for the public service shall be purchased on the condition that delivery shall be made in India, for payment in rupees in India.

Rule 2.—Tenders shall be invited in India, and abroad also when considered desirable, for the supply of all articles which are purchased under rules 1 to 4, wherever the value of the order to be placed is Rs. 250 or more unless there are sufficient reasons to be recorded which indicate that it is not in the public interest to call for tenders. No tender which fails to comply with the condition as to delivery and payment prescribed in rule 1 shall be accepted.

In cases where the tender which is *prima facie* the most economical is not accepted, the reason for its non-acceptance should be recorded.

NOTE.—The principles regarding contracts and tenders are enunciated in revised rule 40A of the Bengal Financial Rules and should be followed strictly in all cases of contracts and tenders. (Finance Department notification No. 1568 F., dated the 10th April 1930.)

Rule 3.—All articles, whether manufactured in India or abroad, shall be subject to inspection before acceptance, and articles for which specifications and/or tests have been prescribed by Government shall be required to conform to such specifications and/or to satisfy the prescribed test or tests which may be carried out during manufacture or before or after despatch from the suppliers' premises.

NOTE.—Copies of the lists of specifications and tests may be obtained direct from the Chief Controller of Stores, Indian Stores Department. The Government of Bengal have adopted these specifications and tests for general use.

Rule 4.—Important plant, machinery and iron and steel work, when obtained in India, shall be obtained only from firms approved by the Chief Controller of Stores, Indian Stores Department, and specified in the lists issued by him from time to time.

Rule 5.—In the case of important construction works let out on contract, articles required for the construction of such works may be supplied by the contracting firm provided that when specifications and/or tests have been prescribed for such articles they shall conform to such specifications and/or shall satisfy such tests.

Rule 6.—Nothing in these rules shall be deemed to prohibit the purchase of stores by one department from another.

NOTE.—All articles manufactured in jails as mentioned in the catalogue to be issued annually must ordinarily be obtained from the jails and may only be purchased from private firms if the cost of buying articles in this way is materially less than that of obtaining them from the jails after taking cost of transport into account.

Rule 7.—The articles enumerated in Annexure A, or any other articles of a special or unusual character, may, when suitable and economical purchases cannot be made in accordance with the preceding rules, be obtained without reference to those rules subject to the following conditions:—

(*a*) Where the value of the purchase exceeds Rs. 5,000, the purchasing officer shall place on record his reasons for not effecting the purchase in accordance with the preceding rules.

(*b*) The purchasing officer may, at his discretion, either obtain the article that he requires by indent on the India Store Department, London, or purchase it direct from manufacturers or dealers abroad. When resort is had to direct purchase from manufacturers or dealers abroad, tenders shall, whenever practicable, be first obtained.

(*c*) When articles are purchased abroad under this rule through the agency of the India Store Department, London, payment shall be made by that department. In other cases payment shall be made—

(*i*) in countries other than Great Britain and Northern Ireland, direct to the suppliers by the purchasing officer,

(*ii*) in Great Britain and Northern Ireland, through the High Commissioner for India.

Copies of all indents from abroad should be sent direct to the Chief Controller of Stores, Indian Stores Department, and the Director of Industries, Bengal, either before despatch or simultaneously with their despatch for scrutiny in order that he may suggest means of obtaining the articles locally, if possible.

NOTE.—This rule does not extend the financial powers of officers to make purchases of any kind as laid down in paragraphs 116 and 116 (*a*) of the Bengal Audit Manual.

IRRIGATION DEPARTMENT.

NOTIFICATION.

No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part I of the *Calcutta Gazette* of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor in Council intends to make, for the supply of water from the combined Damodar and Eden Canal (to be called the Damodar Canal), is hereby published for the information of the persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the undersigned before that date will be duly considered:—

Draft rules and schedule of rates.

1. **Lease for a term of years.**—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the guidance and control of the Divisional Canal Officer.

2. Each block formed under rule 1 shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps to be maintained by such officers.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they shall expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Chief Engineer shall fix from time to time the gross area for which, and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such leases being taken, shall be kept in the Subdivisional Canal offices. These maps shall be drawn to a scale $32'' = 1$ mile when such are available, and elsewhere to a scale $16'' = 1$ mile.

6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional or Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Zilladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.

7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch map and a *khasra* and shall measure the areas of the plots with a chain or measuring rod.

8. When the *khasra* is prepared the Zilladar shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Subdivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

The Zilladar shall then prepare a khatian or abstract of the *khasra*, and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. **Covering leases.**—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. **Kharif season leases.**—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in accordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but holders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. **Single watering leases.**—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of years. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

If the Subdivisional Officer is able to supply water and accepts the application he will require the applicants to pay in advance one-half of the amount due on the areas entered in the application at the rate specified in the schedule of rates, and on this sum being paid he will at once issue a permit in the form given in Appendix No. VIII to these rules and will supply water. When the watering has been concluded the area actually irrigated shall be determined and the assessment shall be made on the areas actually watered within the limits of the block specified in the application and permit.

14. **Rabi season leases.**—Applications for water to irrigate spring rice or other crops excluding sugarcane between November and March inclusive, may be presented at the Subdivisional Canal office or to the

Sectional Officer. They must be in the form given in Appendix No. IX to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix X to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

15. **Sugarcane season leases.**—Applications for water to irrigate sugarcane between the 1st November and the 31st March inclusive may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix XI to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on these areas for which water is actually used as determined by measurement. The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

16. **Single waterings in the hot weather.**—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.

17. **Supply of water.**—The Divisional Canal Officer shall control the supply of water throughout the division in his charge.

No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.

18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.

20. **Collection of water-rates.**—The rates due for water supplied shall be collected by the Revenue Officer through his staff of Zilladars, Tahsildars and peons. All khatians or demand statements shall be signed by the Revenue Officer after scrutiny in his office.

21. At the time of preparation of the khatian in the Zilladar's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.

24. **Unauthorised use of water and waste of water.**—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged in accordance with the provision in the schedule of rates attached to these rules.

25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.

26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.

27. **Complaints and applications.**—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zilladars' offices.

29. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

31. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, he may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is disposed of.

33. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

34. **Remissions and alterations of demands.**—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop.

35. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season derived any benefit from the supply of canal water.

36. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39. Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the Local Government.

40. **Irrecoverable demands.**—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.

41. **Cultivators' representatives.**—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of the applications for leases.

(*ii*) In the measurement of the irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivators the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Zilladars any changes in the occupancy of lands under lease.

(*vii*) In assisting the Tahsildar in collecting rates.

43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

45. Applicants for single waterings for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42 and shall receive remuneration on the same scale as in rule 43.

46. **Power to decline or cancel leases.**—Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—

I. No tank shall be filled unless the water is to be used exclusively for domestic purposes or for watering cattle.

II. No tank shall be filled from which irrigation is practised.

III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.

49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupee one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

(5) "Surveyor" means a Surveyor appointed under section 129 of the Indian Merchant Shipping Act, 1923.

3. **Davits.**—(1) (*a*) Every pilgrim ship which carries more than 12 berthed passengers shall be provided in accordance with her length with the number of sets of davits specified in column A of the table in Rule 36.

(*b*) Every pilgrim ship which carries 12 berthed passengers or less shall be provided in accordance with her length with the number of sets of davits specified in column C of the table in Rule 36.

Provided that no pilgrim ship shall be required to have a number of sets of davits greater than the number of lifeboats required to accommodate the total number of persons the ship is certified to carry on the voyage on which she is proceeding.

Provided further that the Governor General in Council may, where it appears to him necessary, having regard to the height at which boats are carried above the load line and to other circumstances of the case, require a pilgrim ship to carry in lieu of, or in addition to, davits some other approved form of launching apparatus or such arrangements for launching boats as may be, in his opinion, effective.

(2) Each set of davits shall have a lifeboat of class I attached to it and at least one of the lifeboats shall be a motor boat.

(3) If the lifeboats attached to the davits do not provide:—

(*a*) accommodation for all the persons the ship is certified to carry;

(*b*) the minimum capacity specified in column D of the table in Rule 36,

whichever is less, additional lifeboats of Class I or Class II shall be placed on board to make up the deficiency, and the stowage of the additional boats shall be approved by the Governor General in Council:

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons the ship is certified to carry on the voyage on which she is proceeding.

4. **Buoyant apparatus.**—If the lifeboats carried do not provide sufficient accommodation for the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in lifeboats.

5. If the master or owner of a pilgrim ship claims to carry on any voyage fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, he shall declare before the Principal Officer, Mercantile Marine Department, before the time of clearance, that the lifeboats and approved buoyant apparatus actually carried will be sufficient to accommodate all the persons who will be carried at any time during the voyage. If the aggregate capacity of the lifeboats which he claims to carry on the voyage is less than the minimum capacity specified in column D of the table in Rule 36,

the master or owner shall declare that the lifeboats alone will be sufficient to accommodate all the persons who will be carried at any time during the voyage.

6. **Lifebuoys.**—Every pilgrim ship shall carry lifebuoys of a type approved by the Governor General in Council in accordance with the following scale:—

Length of ship in feet.	*Minimum number of lifebuoys.*	
Under 200′ ..	6	of which not less than 2 shall be provided with self-igniting lights.
200′ and under 300′ ..	8	of which not less than 4 shall be provided with self-igniting lights.
300′ and under 400′ ..	10	of which not less than 6 shall be provided with self-igniting lights.
400 and over ..	12	of which not less than 6 shall be provided with self-igniting lights.

7. **Lifebuoy lights.**—(1) Lifebuoy lights shall be self-igniting, shall be provided with a means of attachment to lifebuoys, and shall release and open automatically.

(2) Ships fitted with bridges shall carry a lifebuoy with a self-igniting light attached to it at each side of the navigating bridge in beckets or cleats in such a manner as to admit of instantaneous release and to ensure their dropping clear of the ship's side.

Other lifebuoy lights required under these rules shall be distributed, attached to lifebuoys, to the Surveyor's satisfaction.

(3) All lifebuoy lights required under these rules shall be capable of burning in water for at least 40 minutes. Lights fitted with prickers for opening shall not be accepted.

8. **Life-jackets.**—One approved life-jacket shall be carried for each person on board.

9. **Power to accept alternatives.**—The Governor General in Council may, in general or in any particular case, accept any life saving appliance or arrangement in lieu of a life saving appliance or arrangement required by these rules subject to such conditions as he may impose.

10. **Classification of lifeboats.**—For the purposes of these rules lifeboats are arranged in the following classes:—

CLASS 1.

A.—*Open lifeboats with internal buoyancy only.*

The buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—*Open lifeboats with internal and external buoyancy.*

The internal buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousands of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give buoyancy equal to that of the wooden boat.

C.—*Pontoon lifeboats having a well deck and fixed watertight bulwarks.*

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS 2.

A.—*Open lifeboats having the upper part of the side collapsible.*

A boat of this type shall be fitted both with watertight aircases and with external buoyancy, the volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts:—

	Cubic feet.
Air-cases	1·5
External buoyancy (if of cork)	0·2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of the boat in feet.	Minimum freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—*Pontoon lifeboats having a well deck and collapsible bulwarks.*

All the conditions laid down for boats of Class 1C shall be applied to boats of this type, which differ from those of Class 1C only in regard to the bulwarks.

C.—*Pontoon lifeboats having a flush deck and collapsible bulwarks.*

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean sheer equal to three per cent. of their length :—

Depth of boat in inches.	Minimum freeboard in inches.
12	$2\frac{3}{4}$
18	$3\frac{3}{4}$
24	$5\frac{1}{8}$
30	$6\frac{1}{2}$

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

The collapsible sides or bulwarks of Class II boats shall be watertight.

11. **Motor boats.**—(1) A motor boat carried as part of the statutory life saving appliances of a pilgrim ship, shall comply with the following conditions:—

(*a*) It shall comply with the requirements for a lifeboat of Class 1, and proper appliances shall be provided for putting it into the water speedily.

(*b*) It shall be adequately provided with fuel and kept so as to be at all times ready for use.

(*c*) It shall be fitted with an approved wireless telegraphy apparatus and a searchlight.

(*d*) The motor and its accessories shall be suitably enclosed to ensure operation under adverse weather conditions and provision shall be made for going astern.

(*e*) The speed shall be at least 6 knots when fully loaded in smooth water.

(2) In fixing the volume of the internal buoyancy, and where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and wireless telegraphy installation and their accessories and the weight of the additional persons which the boat could accommodate if these were removed.

12. **Construction of lifeboats.**—(1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the Governor General in Council.

(2) The structural strength of the boats shall be to the satisfaction of the Governor General in Council. In the case of pilgrim ships, launched on or after the 1st June 1935, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

(3) **Seating accommodation.**—In all open boats, all thwart and side seats shall be fitted as low in the boat as practical, and shall provide seating accommodation for all persons the boat is deemed fit to carry and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

(4) **Buoyancy.**—Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class 1 may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material: the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air is prohibited.

(5) **Sheer.**—Open lifeboats of Class 1 shall have a mean sheer at least equal to four per cent. of their length.

(6) **Pontoon lifeboats.**—Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the Governor General in Council for each type of boat by a special test.

For the purpose of this test:—

(*a*) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment.

(*b*) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class 1C	.. ..	60 seconds.
Class 2B	.. ..	60 ,,
Class 2C	.. ..	20 ,,

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) **Marking of lifeboats.**—All boats shall be permanently marked to the satisfaction of the Governor General in Council in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

(11) No boat may be approved the weight of which, when fully laden with persons and equipment, exceeds 20 tons and boats certified to carry 100 persons or more shall be motor boats.

13. **Number of persons.**—(1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 14 and 15), by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be the ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows:—

Units of capacity	Cubic feet.
Class 1A	10
Class 1B	9

Units of surface	Square feet.
Class 2A .. .. Class 3C	3½
Class 1C .. .. Class 2B	3¼

(4) The Governor General in Council may accept a smaller divisor for pontoon boats of Class 1C and Class 2B, if he is satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor provided always that the divisor adopted in place of 3¼ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced:—

(*i*) If it is greater than the number of person for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(*ii*) if, in the case of boats other than open boats of Class 1, the freeboard when the boat is fully loaded is less than the freeboard required by these rules.

(6) **Test afloat.**—If the Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

(7) The Surveyor may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

(8) **Children.**—Two children under the age of twelve years may be carried in place of one adult person.

14. **Cubic capacity of open boats of Class 1.**—(1) In the case of an open boat of Class 1 the cubic capacity shall be determined by the following formula:—

$$\text{Capacity} = \frac{l}{12}(4A+2B+4C)$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the *areas of the cross-sections* at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{h}{12}(a+4b+2c+4d+e)$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e denote the *horizontal breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1

per cent. of the length of the boat, the depth employed in calculating the area of the cross-sections *A* or *C* shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section *B* shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections *A* and *C* shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet, the number of persons given by the application of these rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board all wearing life-jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) **Cubic capacity of motor boats.**—The cubic capacity of a motor boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the motor and wireless telegraphy installation and their accessories.

15. **Deck area and capacity of pontoon boats and of open boats of Class 2.**—In the case of pontoon boats and of open boats of Class 2 the surface in square feet shall be determined by the following formula:—

$$\text{Area} = \frac{l}{12}(2a+1\cdot5b+4c+1\cdot5d+2e)$$

l denotes the *length* in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the *horizontal breadths* in feet outside the planking at the points obtained by dividing *l* into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (*a* and *e* being the breadths at the extreme subdivision, *c* at the middle point of the length and *b* and *d* at the intermediate points).

16. **Size of boats.**—No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

17. **Weight of persons.**—In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 165 lbs. for each adult person that the pontoon boat is authorised to carry.

18. **Appliances for lowering boats.**—(1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the Governor General in Council. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the Governor General in Council. In the case of pilgrim ships launched on or after the 1st June, 1935, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of pilgrim ships launched on or after the 1st June, 1935, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light with a list of 15 degrees. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light with a list of 15 degrees. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats

to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangements as shall be satisfactory to the Governor General in Council.

(6) Where more than one boat is served by the same set of davits, if the falls are of rope, separate falls shall be provided to serve each boat but where wire falls are used with mechanical appliances for recovering them, separate falls need not be provided.

The appliances used shall be such as to ensure lowering the boats rapidly in turn.

Where a mechanical appliance is fitted for the recovery of falls efficient hand gear shall also be provided.

(7) The Governor General in Council may accept in lieu of davits or sets of davits any other appliance, appliances or arrangements, which appear to him at least as effective as davits for placing the boats in the water.

19. **Buoyant apparatus.**—Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

The number of persons to be supported shall be limited to the number of feet in the perimeter of the apparatus.

Such approved buoyant apparatus shall comply with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible and shall be effective and stable when floating either way up.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

20. **Stowing of boats, rafts, etc.**—(1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(*a*) they can be safely launched in the shortest possible time;

(*b*) they will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under Rule 4 or the marshalling of the persons on board at the launching stations, or their embarkation;

(*c*) even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;

(*d*) except as hereinafter provided, they shall be so stowed as not to require lifting before being launched and so secured that they will have the best chance of floating free from the ship in case there is no time to launch them.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(*a*) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;

(*b*) the lifeboats may be stowed one above the other, or they may, subject to such conditions as the Governor General in Council may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(*c*) the lifeboats may be stowed in rows across a deck, bridge or poop;

(*d*) as large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(*e*) means shall be provided to the satisfaction of the Governor General in Council for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

21. **Equipment for boats and buoyant apparatus.**—(1) Every boat which is carried by any pilgrim ship shall be equipped as follows:—

(*a*) With the full single banked complement of oars and two spare oars, and a steering oar.

(*b*) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.

(*c*) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.

(*d*) With a vessel or vessels capable of holding one quart for each person that the boat is deemed fit to carry. Each such vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.

(*e*) With two hatches, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.

(*f*) With a line securely becketted round the outside of the boat.

(*g*) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours; or with some other lantern or light at least as effective, approved by the Governor General in Council.

(2) In addition to the equipment prescribed in sub-rule (1), the boats shall be equipped with:—

(*a*) A mast or masts, and at least one good sail and proper gear for each; but this does not apply to an approved motor boat.

(*b*) An efficient compass.

(*c*) An airtight case containing two pounds of biscuits for each person for whom the boat is approved.

(*d*) One gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

(*e*) One dozen self-igniting red lights in a watertight tin, and a box of suitable matches in a water-tight tin.

(*f*) 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows:—

(*a*) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.

(*b*) A painter of sufficient length.

(*c*) A line securely becketted round the outside of the apparatus.

(*d*) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length:

Provided that on buoyant apparatus, designed to support less than twenty-five persons the paddles, boathook, light and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

(5) A motor boat need not carry a mast or sail or more than half the complements of oars but shall be provided with two boathooks.

22. **Side ladders.**—In every pilgrim ship approved rope ladders shall be provided at each set of davits.

Such ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea going draft allowing for a list of 15 degrees and shall be carried in such a manner as to be always available for use in embarking the persons in the boats.

23. **Illumination.**—On all pilgrim ships in which the boat deck is more than 30 feet above the water, provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

24. **Life-jackets.**—An approved life-jacket shall mean a jacket of approved material and construction, which is capable of floating in fresh water for 24 hours with 16½ lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Life-jackets the buoyancy of which depends on air compartments are prohibited.

25. **Lifebuoys.**—(1) (*a*) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(*b*) Litebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, or whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with beckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

26. **Position of lifebuoys and life-jackets.**—All lifebuoys and life-jackets shall be suitably placed to the satisfaction of the Surveyor and so as to be readily accessible to all persons on board and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life-jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and

illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life-jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

27. **Exemptions.**—(1) Any lifeboat which forms part of the equipment of a pilgrim ship that was launched before the 1st June 1933 and which has been inspected and approved by the Governor General in Council before that date, may be accepted as equivalent to a lifeboat so long as it remains in good condition.

(2) Lifeboats which were ordered before the 1st June 1933 in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the Governor General in Council before that date, may be accepted as equivalent to lifeboats so long as they remain in good condition:

Provided that such lifeboats shall not be so accepted, unless—

(*a*) they have been inspected, where this has not already been done;

(*b*) they would have complied with the requirements of the rules in force prior to the 1st June 1933.

28. (1) When it appears to the Governor General in Council, on the application of the owner of a pilgrim ship carrying more than 12 berthed passengers, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may authorise under exceptional circumstances a smaller number of sets of davits provided that the number carried shall not be less than the minimum fixed in column B of the table in Rule 36 and that the capacity of the lifeboats carried is at least up to the minimum capacity specified in column D of the table.

The owner of such a ship shall be required to satisfy the Surveyor by a practical test in his presence that all the boats carried can be launched in reasonable time, the number of hands employed in the operation not exceeding the total number of boat hands that will be carried on board under normal service conditions and each boat having, when lowered, at least two men on board and its full equipment.

(2) If it appears to the Governor General in Council, on the application of the owner of any pilgrim ship that it is not practicable or reasonable in a particular case to require that pontoon lifeboats, made before the 1st June, 1935, and carried on ships of which the keels were laid on or before that date, shall have the minimum free-board specified in these rules or the bottom and deck made in two thicknesses with textile material between, the Governor General in Council may in his discretion dispense with full compliance with the rules in these respects subject to such conditions, if any, as the Governor General in Council may impose.

29. **Manning of lifeboats, etc.**—(1) Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

One officer or superior seaman rating and at least two other hands who shall be trained in the operations of launching and handling boats for each lifeboat required to be carried under the provisions of these rules and in addition one officer and six hands to clear away the buoyant apparatus carried.

(2) A man capable of working the motor shall be assigned to each motor boat.

(3) The officer or rating placed in charge of each boat shall have a list of its crew and shall see that the men placed under his orders are acquainted with their several duties and stations.

(4) The duty of seeing that the boats and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

30. **Lifeboatmen.**—From a date to be notified by the Governor General in Council each lifeboat shall be in charge of a minimum number of lifeboatmen holding certificates of efficiency issued under the authority of a competent authority. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of oars; that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to lifeboat service.

31. **Muster List.**—(1) The muster list shall assign duties to the different members of the crew in connection with—

(*a*) the launching of the boats attached to davits;

(*b*) the preparation of the other boats;

(*c*) the equipment of the boats generally;

(*d*) the closing of the bulkhead doors, etc.;

(*e*) the mustering of the passengers.

It shall also assign to the members of the Stewards' Department their several duties in relation to the passengers at a time of emergency. These duties shall include—

(*a*) warning the passengers;

(*b*) seeing that they are dressed and have put on their life-jackets in a proper manner;

(*c*) assembling the passengers;

(*d*) keeping order in the passages and on the stairways and generally controlling the movemennts of the passengers.

(2) The muster list shall also specify definite alarm signals for calling all the crew to their boats and fire stations and shall give full particulars of the signals.

(3) Before the ship sails, the Master shall draw up and exhibit the muster list and the proper authority shall be satisfied that the muster list has been prepared for the ship and is posted in several parts of the ship and in particular in the crew's quarters.

32. **Drill.**—(1) In all ships to which these rules apply, a boat drill and a water-tight door drill shall be held as soon as possible after leaving the original port of departure and thereafter once a week during the voyage when practicable, at which a number of the male passengers (e.g., the single men) when this is practicable shall be mustered apart from the others in a convenient place whence they can be readily requisitioned to assist in swinging out boats or rounding up falls, etc, if required. Such drills shall be recorded in the official log book.

(2) The Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and water-tight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log book shall state whether and when this has been done.

33. **Emergency boat.**—In all pilgrim ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action whilst the ship is at sea.

34. **Boat-decks.**—Special boat-decks shall be kept entirely clear of passengers, and in the case of shade-decks, bridge-decks and poop-decks, which are utilized for carrying passengers as well as boats, a space sufficient for the working of the boats shall be railed off; and where boats stowed on a shade, bridge or poop-deck occupy half or more of the total breadth of the deck, the whole of the space abreast the boats shall be railed off and treated as a special boat-deck.

35. **Stowage.**—The stowage of boats and buoyant apparatus in any pilgrim ship shall not be passed by the Surveyor as complying with these rules unless he is satisfied that every part of the life saving equipment is readily available.

36. **Sets of davits and aggregate capacity of lifeboats.**—The following table fixes according to the length of ship the minimum number of sets of davits to be provided in pilgrim ships and the minimum aggregate capacity of the lifeboats carried on board in accordance with these rules:—

Provided that where such place contains any apartment occupied by women or children, reasonable time and facilities shall be afforded for their withdrawal with the least possible inconvenience.

(3) A notified place whereof possession is taken under sub-section (2) shall be deemed to remain in the possession of Government so long as the notification under sub-section (1) in respect thereof remains in force.

Moveable property found in a notified place.

17B. (1) The District Magistrate, Commissioner of Police or officer taking possession of a notified place shall also take possession of all moveable property found therein, and shall make a list thereof in the presence of two respectable witnesses.

(2) If, in the opinion of the District Magistrate, or in a Presidency-town the Commissioner of Police, any articles specified in the list are or may be used for the purposes of the unlawful association, he may proceed subject to the provisions hereafter contained in this section to order such articles to be forfeited to His Majesty.

(3) All other articles specified in the list shall be delivered to the person whom he considers to be entitled to possession thereof, or, if no such person is found, shall be disposed of in such manner as the District Magistrate or Commissioner of Police, as the case may be, may direct.

(5) Where any such representation is accepted by the District Magistrate or Commissioner of Police, he shall deal with the article concerned in accordance with the provisions of sub-section (3).

(6) Where any such representation is rejected, the representation, with the decision thereon, shall be forwarded to the District Judge, in the case of a decision by a District Magistrate, or, to the Chief Judge of the Small Cause Court, in the case of a decision by the Commissioner of Police, and no order of forfeiture shall be made until the District Judge or Chief Judge of the Small Cause Court, as the case may be, has adjudicated upon the representation. Power to forfeit funds of an unlawful association.

17E. (*1*) Where the Local Government is satisfied, after such inquiry as it may think fit, that any monies, securities or credits are being used or are intended to be used for the purposes of an unlawful association, the Local Government may, by order in writing, declare such monies, securities or credits to be forfeited to His Majesty.

(*2*) A copy of an order under sub-section (*1*) may be served on the person having custody of the monies, securities or credits, and on the service of such copy such person shall pay or deliver the monies, securities or credits to the order of the Local Government:

Provided that, in the case of monies or securities, a copy of the order may be endorsed for execution to such officer as the Local Government may select, and such officer shall have power to enter upon and search for such monies and securities in any premises where they may reasonably be suspected to be, and to seize the same.

(*3*) Before an order of forfeiture is made under sub-section (*1*) the Local Government shall give written notice to the person (if any) in whose custody the monies, securities or credits are found of its intention to forfeit, and any person aggrieved thereby may within fifteen days from the issue of such notice file an application to the District Judge in a District, or to the Chief Judge of the Small Cause Court in a Presidency-town, to establish that the monies, securities or credits or any of them are not liable to forfeiture, and if any such application is made, no order of forfeiture shall be passed in respect of the monies, securities or credits concerned until such application has been disposed of, and unless the District Judge or Chief Judge of the Small Cause Court has decided that the monies, securities or credits are liable to forfeiture.

V of 1908.

(*5*) Where the Local Government has reason to believe that any person has custody of any monies, securities or credits which are being used or are intended to be used for the purposes of an unlawful association, the Local Government may, by order in writing, prohibit such person from paying, delivering, transferring or otherwise dealing in any manner whatsoever with the same, save in accordance with the written orders of the Local Government. A copy of such order shall be served upon the person to whom it is directed.

(*6*) The Local Government may endorse a copy of an order under sub-section (*3*) for investigation to any officer it may select, and such copy shall be warrant whereunder such officer may enter upon any premises of the person to whom the order is directed, examine the books of such person, search for monies and securities, and make inquiries from such person, or any officer, agent or servant of such person, touching the origin of and dealings in any monies, securities or credits which the investigating officer may suspect are being used or are intended to be used for the purposes of an unlawful association.

(7) A copy of an order under this section may be served in the manner provided in the Code of Criminal Procedure, 1898, for the service of a summons, or, where the person to be served is a corporation, company, bank or association of persons, it may be served on any secretary, director or other officer or person concerned with the management thereof, or by leaving it or sending it by post addressed to the corporation, company, bank or association at its registered office, or, where there is no registered office, at the place where it carries on business. V of 1898.

(8) Where an order of forfeiture is made under sub-section (1) in respect of any monies, securities or credits in respect of which a prohibitory order has been made under sub-section (3), such order of forfeiture shall have effect from the date of the prohibitory order, and the person to whom the prohibitory order was directed shall pay or deliver the whole of the monies, securities, or credits forfeited, to the order of the Local Government.

(9) Where any person liable under this section to pay or deliver any monies, securities, or credits to the order of the Local Government refuses or fails to comply with any direction of the Local Government in this behalf, the Local Government may recover from such person, as arrears of land-revenue or as a fine, the amount of such monies or credits or the market value of such securities.

(10) In this section, 'security' includes a document whereby any person acknowledges that he is under a legal liability to pay money, or whereunder any person obtains a legal right to the payment of money; and the market value of any security means the value as fixed by any officer or person deputed by the Local Government in this behalf.

(11) Except so far as is necessary for the purposes of any proceeding under this section, no information obtained in the course of any investigation made under sub-section (6) shall be divulged by any officer of Government, without the consent of the Local Government.

Jurisdiction barred.

17F. Every report of the taking possession of property and every declaration of forfeiture made, or purporting to be made under this Act, shall, as against all persons, be conclusive proof that the property specified therein has been taken possession of by Government or has been forfeited, as the case may be, and save as provided in sections 17B and 17E no proceeding purporting to be taken under section 17A, 17B, 17C, 17D or 17E shall be called in question by any Court, and no civil or criminal proceeding shall be instituted against any person for anything in good faith done or intended to be done under the said sections or against Government or any person acting on behalf of or by authority of Government for any loss or damage caused to or in respect of any property whereof possession has been taken by Government under this Act."

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 18th January 1933.

First Forecast of the Wheat crop of Bengal, 1932-33.

(NOTE.—On an average of the five years ending 1930-31, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1930-31, averaged (*a*) 39·8 and (*b*) 10·9 per cent., respectively.)

Explanatory.—Four forecasts of the wheat crop are published. The present forecast deals only with the estimated area sown and the general condition of the crop in the early stages.

Acreage.—According to the estimates of District Officers, the total area sown amounts to 142,100 acres this year as against 139,700 and 145,200 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in October though below the normal was sufficient for the preparatory tillage. In the first part of November untimely heavy rains delayed sowings in North Bengal; elsewhere the operations generally took place in the usual time. Since then the weather has been dry and the present outlook, so far, is reported to be satisfactory, on the whole.

G. P. HECTOR,
Director of Agriculture, Bengal.

Resolution on the Annual Report of the Department of Agriculture, Bengal, for the year 1931-32.

GOVERNMENT OF BENGAL.

Department of Agriculture and Industries.

Agriculture.

CALCUTTA, THE 17TH JANUARY 1933.

RESOLUTION—No. 322Agri.

Minister-in-charge: The Hon'ble Nawab K. G. M. Faroqui, Khan Bahadur.

Read—

The Annual Report of the Department of Agriculture, Bengal, for the year 1931-32.

Administration.—Mr. R. S. Finlow was in charge of the department during the year under review. There was no change in the personnel of the superior controlling staff of the department except that when Mr. F. Smith, Deputy Director of Agriculture, Eastern Circle, went on leave in March 1931, Rai Sahib Jamini Kumar Biswas held charge of the circle.

2. **General.**—On the whole the season was good for winter rice and satisfactory for autumn and spring crops, but floods caused damage to standing crops in the water-logged tracts of east and north Bengal. Unprecedented early rise of water in the Brahmaputra river caused widespread damage to crops in the adjoining areas, those most seriously affected being the Kurigram and Gaibandha subdivisions of Rangpur district, Serajganj subdivision in Pabna district, the eastern part of Bogra district and the Tangail and Jamalpur subdivisions in Mymensingh district. In parts of Bogra, Serajganj and Gaibandha which were inundated in the preceding year the distress was acute. As usual, the Agriculture Department assisted the local officers in the relief operations by arranging for the supply of paddy seedlings and *rabi* seeds. About 5,000 maunds of *rabi* seeds, 10 lakhs of sugarcane setts and a large quantity of paddy seedlings were distributed in the affected areas.

As in the preceding year, the depressing economic conditions which prevailed affected the agricultural population. Intensive propaganda was carried on in rural areas to persuade the cultivators to restrict the area under jute and the results are believed to have been satisfactory. An interesting feature of the propaganda was the distribution of leaflets by an aeroplane in the jute-growing tracts. The price of jute, however, did not improve and the cultivators had to remain content with small money return for their produce.

3. **Research and experiment.**—During the year under report the following schemes of research which were sanctioned and financed by the Imperial Council of Agricultural Research came into operation:—

(1) Scheme for research into sugarcane-crushing and *gur*-boiling machinery.
(2) Scheme for the establishment of a sugarcane seedling station at Dacca.
(3) Scheme for the appointment of a Physiological Chemist to investigate the problems of animal nutrition.
(4) Scheme for rice research in western Bengal.

The statistical examination of manurial experiments conducted on the experimental farms during the past twenty years which was undertaken with the aid of a grant from the Imperial Council was completed

and reports submitted to the Council. Schemes for the improvement of fruits and for the appointment of a cigar-curing and blending expert have also been approved. The universities of Dacca and Calcutta also continued their research work financed by the Imperial Council of Agricultural Research, viz., those on the methods of mechanical analysis of soils, particularly with reference to laterite soils, and on the nutrition of rice, and on colloid soil constituents respectively.

The Agricultural Chemist continued his experiments on methods of mechanical analysis of soil with the help of a Physical Assistant appointed under him by the Imperial Council. In the Botanical Section the First Economic Botanist continued to pay most attention to rice, the staple food crop of the province: work on survey and selection of varieties was in progress at Dacca, Barisal, Bankura and Suri. Fodder crops were the important branch of work which engaged the attention of the Second Economic Botanist. Potato storage experiments were also conducted on a small scale. Investigation into the life history of the white moth borer of sugarcane engaged the attention of the Entomological Section.

4. **Demonstration and propaganda.**—Financial stringency proved a serious handicap to work in this direction; but nevertheless it is gratifying to note that progress continued to be maintained. As a result of departmental propaganda there has been a remarkable extension of the area under Coimbatore cane in the province, especially in the districts of Rajshahi, Berhampore, Malda, Burdwan and Nadia. Considerable areas under departmental cane are also found in Mymensingh, Rangpur and Dacca, and the cultivation is spreading rapidly in Bankura, Midnapore, Dinajpur, Jalpaiguri and Bakarganj. During the year a record distribution of 52 lakhs of sugarcane cuttings was made from Government farms. In this way the cultivator has been enabled to find a substitute money crop for jute in the present economic depression, but the problem is to secure for him a profitable return for his cane. It has, therefore, been found necessary to demonstrate the processes of manufacture of sugar, and steps have been taken for this purpose. An improved power-crusher and *gur*-boiling plant has been invented by the Agricultural Engineer, the use of which will, it is hoped, make sugar manufacture a profitable undertaking for small agriculturists.

The work on the introduction of improved varieties of paddy also received attention. In the year under report 245 seed centres, covering a total area of 8,200 bighas of both *aus* and *aman* paddies, supplied about 10,000 maunds of seed. An interesting experiment is being made to organise seed distribution centres through union boards with the assistance of district officers. It is recognised that union boards are a potent agency for the multiplication of departmental seeds, and Government will watch with interest the result of the experiment undertaken in the 24-Parganas district.

There was a remarkable increase in the number of private farms in the province which were 215 against 165 in the preceding year, viz., 154 in the Western Circle, 50 in the Northern Circle and 11 in the Eastern Circle.

5. **Agricultural education.**—The training of teachers from non-Government institutions at the Secondary Agricultural School at Dacca in connection with the scheme for agricultural education in middle English and high English schools was suspended during the year pending examination of the results of the working of the scheme during the experimental period.

The training of *bhadralok* youths in practical agriculture at the Faridpur farm with the object of settlement of *char* land with them in the district is being continued. The third batch of five students completed their training in July 1931.

6. **Sericulture.**—Work in the Sericultural Section continued to be carried out on the same lines as in previous years, particular attention being paid to the reduction of cost of production. In the resolution on last year's report reference was made to the decision to re-examine the whole policy of the Sericultural Department with a view to adjusting the work of the department to present needs. A detailed examination was accordingly made, but the matter was allowed to stand over pending the publication of the recommendations of the Provincial Retrenchment Committee. It was, however, recognised that the primary economic object was to stimulate trade in silk in Bengal, and as it was believed that defective methods of reeling were among the main contributing causes which hindered the establishment of the industry on a sound footing, measures were taken for the

introduction of reeling and twisting of silk on up-to-date lines. Two Sericultural Officers and the Inspector of Technical and Industrial Institutions were deputed to Mysore to study the working of the Sericulture Department there. Several types of machinery in use in Mysore have been purchased by both the Agricultural and Industries Departments for the Piasbari Sericultural Nursery and the Berhampore Silk Weaving Institute, respectively. The result of the experiment will be watched with interest.

7. **Acknowledgment.**—The thanks of Government in the Ministry of Agriculture are due to Mr. Finlow for the efficient manner in which he administered the department. Since the close of the year he has gone on leave and retired from the service of Government. IRRIGATION DEPARTMENT.

NOTIFICATIONS.

No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part I of the *Calcutta Gazette* of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor in Council intends to make, for the supply of water from the combined Damodar and Eden Canal (to be called the Damodar Canal), is hereby published for the information of the persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the undersigned before that date will be duly considered:—

Draft rules and schedule of rates.

1. **Lease for a term of years.**—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the guidance and control of the Divisional Canal Officer.

2. Each block formed under rule 1 shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps to be maintained by such officers.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they shall expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Chief Engineer shall fix from time to time the gross area for which, and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such leases being taken, shall be kept in the Subdivisional Canal offices. These maps shall be drawn to a scale $32'' = 1$ mile when such are available, and elsewhere to a scale $16'' = 1$ mile.

6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional or Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Zilladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.

7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch map and a *khasra* and shall measure the areas of the plots with a chain or measuring rod.

8. When the *khasra* is prepared the Zilladar shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Subdivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

The Zilladar shall then prepare a khatian or abstract of the *khasra*, and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. **Covering leases.**—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. **Kharif season leases.**—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in accordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but holders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. **Single watering leases.**—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of years. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

16. **Single waterings in the hot weather.**—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.

17. **Supply of water.**—The Divisional Canal Officer shall control the supply of water throughout the division in his charge.

No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.

18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.

At the time of preparation of the khatian in the Zilladar's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.

24. **Unauthorised use of water and waste of water.**—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged in accordance with the provision in the schedule of rates attached to these rules.

25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.

26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.

27. **Complaints and applications.**—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zilladars' offices.

30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

31. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, he may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is disposed of.

33. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

34. **Remissions and alterations of demands.**—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop.

35. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season derived any benefit from the supply of canal water.

36. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39. Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the Local Government.

40. **Irrecoverable demands.**—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.

41. **Cultivators' representatives.**—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of the applications for leases.

(*ii*) In the measurement of the irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivators the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Zilladars any changes in the occupancy of lands under lease.

(*vii*) In assisting the Tahsildar in collecting rates.

43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

45. Applicants for single waterings for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42 and shall receive remuneration on the same scale as in rule 43.

46. **Power to decline or cancel leases.**—Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—

I. No tank shall be filled unless the water is to be used exclusively for domestic purposes or for watering cattle.

II. No tank shall be filled from which irrigation is practised.

III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.

V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.

VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.

49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*) of the Act.

51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupee one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.
